

Software engineer (M/F, 2 CDI positions)

The company

neovini sàrl is an R&D centre based in downtown Strasbourg and active in the ICT and e-commerce area.

The position

Are you interested in developing a cloud-based application, handling and processing high data volumes?

Do you want to work in a multinational team? Do you have a genuine interest in learning new things?

Do you want to go for Frontend and work with Web Components? Or do you want to work on Backend in Azure with C#? Perhaps you master both?

If your answer is an affirmative YES, then neovini is the place for you.

We are looking for open minded people who can take leadership, initiative and active responsibility as part of our team.

Qualifications and experience

Candidates must have:

- a. Computer and systems science degree, ideally at engineer/doctorate level; or equivalent professional experience
- b. Good English language knowledge (read, spoken, written)
- c. Passion for development

Process for application

Please send a motivational letter and your CV in English to **recruitment(at)neovini.fr**.
